TIMES OF MINIMA OF UX UMA

	<u>Time of Primary Minimum</u>	<u>O-C (days)</u>
Hel.J.D.	2443656.6784	-0.0024
	2443657.6619	-0.0023
	2443658.6454	-0.0021

The shape of the light curve appears normal, but the observed times of minimum are badly discordant (by about $0^d.002$) with an assumed periodic, smooth O-C deviation from linear elements as reviewed by Kukarkin (1977 MNRAS 180. 5P).
