V1057 CYGNI

Photographic UBV magnitudes for this star have been obtained from plates taken with the Uppsala-Kvistaberg Schmidt telescope. The results are, with a probable error of about ± 0.1 mag.:

Date	U	B	V
1980-10-09	14.1	13.1	11.2
1982-09-17	-	-	11.5
1983-10-06	14.5	13.4	11.6

Thus the colours of the star have not changed significantly over the past three years, despite a decrease in visual brightness of about 0.4 mag.
