**Explanation of the remarks in the table:**

NFO refers to the instrumentation (telescope and CCD camera) used.

**Remarks:**

A sample of the observations has been published by Lacy, Hood & Straughn (2001).

**Acknowledgements:**

Construction and operation of the NFO telescope were partially funded by the National Science Foundation, the Arkansas Center for Space and Planetary Sciences, the NASA Arkansas Space Grant Consortium, the University of Arkansas, Fayetteville, the University of Arkansas at Little Rock, and the Harvard-Smithsonian Center for Astrophysics. We are grateful to Bill Neely for initial processing of the images and construction, maintenance, and operation of the NFO equipment and software.
